Interview Summary

The applicant's representative called the Examiner on April 28, 2010 and May 07, 2010 requesting to withdrawn the finality of the Office Action made on 11/20/09. The Applicant's representative discloses the finality of the office action was improper. The Examiner agrees with the Applicant's representative arguments and has withdrawn the finality of the Office Action made on 11/20/09 and has issued a new Non-Final rejection.

The amendment after final filed on 01/19/10 has been entered.

Finally, the Examiner suggested to the Applicant's representative to enter the following language in order to clarify the location of the circumferential rim extending in the periphery of the middle portion: ---extending entirely about a periphery of the middle portion---.

Response to Amendment

Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

Additionally, the Examiner has withdrawn the 102 rejection and there are no 102 or 103 rejections.

Reissue Applications

In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.

Claims 4-9, 13, 30, 31, 33-37 are rejected as being based upon a defective reissue under 35 U.S.C. 251. See 37 CFR 1.175. The nature of the defect is set forth above.

Receipt of an appropriate supplemental oath/declaration under 37 CFR 1.175(b)(1) will overcome this rejection under 35 U.S.C. 251. An example of acceptable language to be used in the supplemental oath/declaration is as follows:

"Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant."

See MPEP § 1414.01.
